Subject: Changes are coming to cyBUY!

Starting on December 16, a new look is coming to your cyBUY Marketplace. The cyBUY Marketplace will have a new, cleaner and less cluttered look, and enhanced user functions. With these changes, you'll be able to:

- Remove items and change item quantities in your cart more easily.
- Include different notes and business purpose for each vendor in your cart.
- Submit each vendor in the cart separately to your releasers.

Look for updates with more information, including videos demonstrating the new features and functionality of the system, later this week.
